

# Kana Moriwaki

Department of Physics, Graduate School of  
Science, the University of Tokyo

7-3-1 Hongo, Bunkyo-ku, Tokyo 113-0033, JAPAN

☎ +81-3-5841-4177

✉ kana.moriwaki@phys.s.u-tokyo.ac.jp

🌐 [http://www-utap.phys.s.u-tokyo.ac.jp/~moriwaki](http://www.utap.phys.s.u-tokyo.ac.jp/~moriwaki)

## Research Interests

Galaxy formation and evolution, high-redshift galaxies, cosmic reionization, cosmological simulation, machine learning.

## Education and Employment

since 2022 **Assistant Professor**, *Research Center for the Early Universe, Graduate School of Science, The University of Tokyo.*

2019–2022 **Doctor of Science**, *Department of Physics, Graduate School of Science, The University of Tokyo.*

- Thesis: *Analysis of the Large-Scale Structure of the Universe Using Cosmological Simulations and Machine Learning*
- Supervisor: Naoki Yoshida

2017 – 2019 **Masters of Science**, *Department of Physics, Graduate School of Science, The University of Tokyo.*

- Thesis: *The distribution and physical properties of emission line galaxies in the early universe*
- Supervisor: Naoki Yoshida

2013 – 2017 **Bachelor of Science**, *Department of Physics, Graduate School of Science, The University of Tokyo.*

## Fellowships and Awards

2023 International Astronomical Union PhD Prize honourable mention

2022 Springer Thesis Award

2022 School of Science Encouragement Award, The University of Tokyo

2022 The University of Tokyo President's Award for Students, Grand Prize

2021 Young Scientist Presentation Award, 34th Rironkon Symposium

2020 – 2022 JSR Fellowship, the University of Tokyo

2019 – 2022 Japan Society for Promotion of Science (JSPS) Research Fellow, DC1

2017 – 2022 Advanced Leading Graduate Course for Photon Science (ALPS), the University of Tokyo

2017 School of Science Encouragement Award, The University of Tokyo

## Teaching

University of Tokyo

- 2023 Course on Exercise in Physics (electromagnetics)
- 2022 Seminar "Galaxy formation and evolution"

### Invited Lectures

- Sep. 2023 "Galaxy formation with cosmological simulation and machine learning", NECO Summer School, Kyoto YITP, Japan

---

### Grants and Funding

- 2023-2026 Grant-in-Aid for Scientific Research (C) (PI, 3,700,000 JPY)
- 2023-2025 Program for Promoting Research on the Supercomputer Fugaku (co-I, 26,841,000 JPY for 2023)
- 2022-2024 International Exchanges 2022 Round 2, the Royal Society (co-I, 12,000 GBP)
- 2019-2022 JSPS Grant for JSPS Fellows (PI, 3,100,000 JPY)

---

### Professional Activities

- Oct. 2023 LOC, The 14th RESCEU International Symposium, the University of Tokyo, Japan
- Sep. 2023 SOC chair, Fugaku AstroAI 2023, Tsukuba University, Japan
- Aug. 2023 SOC, NECO Summer School 2023, Kyoto YITP, Japan
- Oct. 2021 SOC chair, SUBLIME Workshop 2021, online
- since 2021 Japan SKA Consortium member
- since 2021 Japan Euclid Consortium member

---

### Publications

#### First Author

## Book

- [1] Kana Moriwaki. *Large-Scale Structure of the Universe – Cosmological Simulations and Machine Learning*. Springer Theses. Springer Singapore, 2022.

---

## Conferences and Workshops (Selected)

- Feb. 2022 Contributed Talk, "Deep learning for line de-confusion in large-scale line intensity maps", SAZERAC: Learning the high-redshift Universe
- Dec. 2021 Invited Talk, "Deep Learning Application for Reconstruction of Large-Scale Structure of the Universe", Big Data Analytics in Science and Engineering (BASE), 9th International Conference Data Models and New Query Languages in Big Data Analytics
- Oct. 2021 Contributed Talk, "Signal extraction from line intensity data cubes with 3D conditional GAN", SUBLIME Workshop
- Jul. 2021 Contributed Talk, "Component extraction from line intensity maps with conditional GAN", UChicago/KICP Line Intensity Mapping Workshop 2021
- Jun. 2021 Poster Presentation, "Deep Learning for Line Intensity Mapping: Information Extraction", Statistical Challenges in Modern Astronomy VII
- Jan. 2021 Contributed Talk, "[OIII] line emitters as a probe of galaxy-21 cm cross-correlation signals from the early stage of reionization" SAZERAC The 21-cm Signal from Cosmic Dawn and the Epoch of Reionization
- Nov. 2020 Invited Talk, "Deep learning application for line intensity mapping" The 9th KIAS Workshop on Cosmology and Structure Formation

- Jan. 2020 Contributed Talk, “ Emission line as a tracer of ISM properties and the large-scale structure of the universe ”, Sexten workshop: The interstellar medium of high redshift galaxies
- Aug. 2019 Poster Presentation, “ Cross-correlation between the 21-cm signal and [OIII] emitters during early cosmic reionization ”, FIRST LIGHT: STARS, GALAXIES AND BLACK HOLES IN THE EPOCH OF REIONIZATION
- Feb. 2019 Contributed Talk, “ The distribution and physical properties of high-redshift [OIII] emitters in a cosmological hydrodynamics simulation ”, New Frontiers of Submillimeter Astronomy
- Nov. 2018 Contributed Talk, “ The distribution and physical properties of high-redshift [OIII] emitters in a cosmological hydrodynamics simulation ”, IAU Symposium 341: PanModel2018: Challenges in Panchromatic Galaxy Modelling with Next Generation Facilities

---

## Seminars

- June. 2023 Colloquium Talk, The Kavli Institute for Astronomy and Astrophysics, Peking University
- Oct. 2022 Seminar Talk, Institute for Physics of Intelligence, the University of Tokyo
- Apr. 2022 Colloquium Talk, Yunnan University, SWIFAR
- Jan. 2021 Seminar Talk, Flatiron Institute, Simons Foundation
- Nov. 2020 Seminar Talk, University of Tsukuba
- Nov. 2019 Seminar Talk, Waseda University
- Jul. 2019 Seminar Talk, Nagoya University

---

## Outreach

- Aug. 2022 Public Talk at Open Campus, School of Science, the University of Tokyo
- Feb. 2020 Public Talk at Diversity Cafè, Tokyo Metropolitan Hakuo High School
- Apr. 2019 TA at Toshiko Yuasa Laboratory School for Female Students in Science 2019
